

# Reliable Solutions for Transformer Industry

## — About Us

TAMAM ELEKTRİK SAN. VE TİC. A.Ş. has been established in Istanbul, 2018. Since then, we have progressed into a global brand and a reliable supplier to transformer manufacturers, all around the world.

Our acute management team have led our company to achieve many goals including “complete in-house manufacturing” to achieve the required competitiveness as well as obtaining international accreditation and string of ISO 9001 : 2015 for Quality Management System Standards.

The fully integrated “complete in-house manufacturing” facility, good governance, professional skillfull team and decades of experience in the industry reinforce our commitment, to meet all customer needs.

We are providing the most conducive working environment and superior benefits for our employees. We are upholding business ethics and being environmentally concious to maintain long term business relations with state, our stakeholders, employees, suppliers and customers.

## — Our Commitment to Quality

At TAMAM ELEKTRİK SAN. ve TİC. A.Ş., we prioritize quality at every stage of production. From our ISO 9001:2015 certified facility to our rigorous product testing processes, we ensure that our products meet the highest international standards.

ISO Certification: Our products are manu-

factured in compliance with ISO 9001:2015 standards, ensuring consistent quality and performance.

Product Testing: Each product undergoes extensive testing, including mechanical endurance, temperature rise, and visual inspections, to guarantee optimal performance.

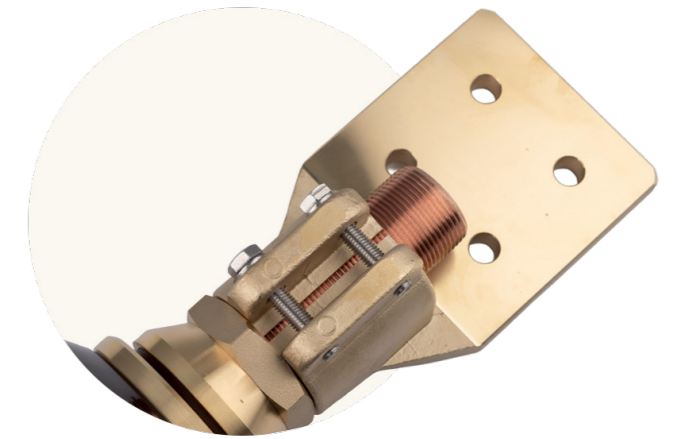

## — EN TYPE BUSHINGS

Standard(s)	EN 50180 - EN 50386
Voltage	1 kV - 3 kV - 24 kV - 36 kV
Current	Up to 6300A
Sealing	NBR - Cork Rubber - Viton - Silicon

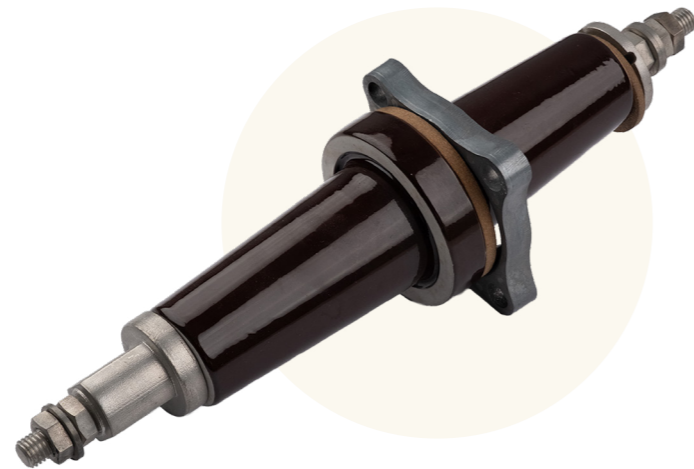

## — DIN TYPE BUSHINGS

Standard(s)	DIN 42530 - DIN 42531 DIN 42532 - DIN 42533 - DIN 42534
Voltage	1 kV - 3 kV - 24 kV - 36 kV - 52 kV
Current	Up to 6300A
Sealing	NBR - Cork Rubber - Viton - Silicon

## — BS TYPE BUSHINGS

Standard(s)	<b>BS 2562</b>
Voltage	<b>1 kV - 3,6 kV - 17,5 kV - 36 kV</b>
Current	<b>Up to 2400A</b>
Sealing	<b>NBR - Cork Rubber - Viton - Silicon</b>

## — CORRUGATED WALL

Material	<b>Cold rolled steel according to EN 10130 - DC 01</b>
Fin Width	<b>400mm to 1600mm</b>
Fin Pitch	<b>30mm to 100mm</b>
Edge Bending	<b>45 - 90 - 180 - 270 degree</b>
